Integrated Solutions

SUPPORTING SERVICES AND OUTCOMES THROUGH A MULTI-DISCIPLINED APPROACH

J.K. Elder & Associates, Inc. was formed in 2007 to address programmatic, operational, technological, fiscal, and evaluation needs within public and private human service organizations. Through the integration of knowledge spanning each of these disciplines, we are able to create custom solutions designed to improve operational efficiencies, enhance outcomes and leverage available funding. We are able to apply our knowledge to a broad spectrum of service areas

including child welfare, mental health, public assistance, aging, and education. Our principal staff members have been engaged in the implementation of large scale programmatic and software solutions for public entities and have worked with private agencies to establish locally-focused strategic plans. Through these diverse projects, we have developed the ability to help organizations see and access opportunities that might not otherwise be obtainable.

CUSTOM SOLUTIONS

J.K. Elder & Associates, Inc. works with your organization to create and implement custom solutions designed to improve your practices, operations and outcomes. We specialize in integrating operational, programmatic, continuous quality improvement and fiscal components to ensure our solutions are able to be implemented and are sustainable.

SOLUTION AREAS

- HUMAN SERVICE ACCREDITATION
- PROGRAM DEVELOPMENT AND IMPLEMENTATION
- FISCAL MANAGEMENT, RATE SETTING AND FEDERAL CLAIMING
- REVENUE ENHANCEMENT AND LEVERAGING
- PROGRAM EVALUATION
- STRATEGIC PLANNING

human service solutions to support programmatic outcomes and business needs

EVALUATION

Well versed in the development and implementation of evaluation plans for national and local initiatives, we are able to establish and execute complex strategies to document and assess implementation of pilot programs or demonstration projects. Our experience includes the evaluation of a National Resource Center and of a Federal Demonstration Project.

PROGRAM DEVELOPMENT

We specialize in the implementation of strength-based, client-centered programs and services with ongoing evaluation. We encourage and support organizations in the efforts to implement changes quickly and efficiently. The ultimate goal is to improve evidence based programs and services.

ACCREDITATION

Accreditation through COA or other nationally recognized bodies is an achievement that indicates your organizations commitment to quality programming. We have assisted large and small organizations in their efforts to achieve and maintain this important milestone.

REVENUE ENHANCEMENT

J.K. Elder & Associates works on the forefront of changing regulations to deliver expert, proactive consulting services designed to improve organizational revenue and leverage exiting funding streams.

Our revenue enhancement team is capable of addressing various financial or operational needs and identifying current federal, state and local funding sources established to support provision of services. We are experienced in the areas of cost analysis, rate setting, funds management and federal claiming.

STRATEGIC PLANNING

The ability to direct and manage both growth and program improvement is central to the success of any organization. Recognizing this fact, J.K. Elder & Associates, Inc. has created a process to guide the development of a comprehensive strategic plan for organizations that focuses on implementing a clear pathway for improvement and establishes measurable goals and objectives. Our process begins with an organizational analysis and culminates with the creation of a Balanced Scorecard.

TECHNOLOGICAL ADVANTAGE

We believe that, in order to be managed appropriately, organizations must have access to current data supporting services and outcomes.

Our staff is able to evaluate and recommend technology solutions designed to ensure management is able to obtain data that are able to drive decision making processes

BEST PRACTICE INTEGRATION

Our staff's engagement and experience on a national level provides you with access to cutting-edge research and information. We are able to integrate this information into our solutions to ensure continuing compliance with federal standards and industry-recognized best-practices.
